Kind Attn.: Department of Corporate Communications/Head - Listing Department

Sub.: Disclosure under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 - Commissioning of Epichlorohydrin (ECH) plant

Dear Sir(s),

Pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, read with SEBI Master Circular No. SEBI/HO/CFD/CFD-PoD2/CIR/P/0155 dated 11th November 2024, we wish to inform you that the Company has commissioned its Epichlorohydrin (ECH) plant of 35,000 TPA at its Chemical complex in Jhagadia, Bharuch Dist., Gujarat today i.e., 14th October 2025 at 2:00 pm. The balance capacity of 17,000 TPA will be commissioned shortly.

It may be noted that ECH serves as an all-important link between the existing Chlor-alkali business vertical and the vertical of “advanced materials”, as on one side ECH is a chlorine-downstream product and on the other, ECH is a key raw material for producing “liquid epoxy resins”.

Unlike most other plants in the world today that use propylene (a non-green input) as a raw material, this state-of-the art plant benefits from cutting edge European technology and is greener, using “glycerine”, a by-product of the Bio-diesel production process, as its raw material.

Kindly take the above information on record.

This information is also being hosted on the Company’s website at <https://www.dcmshriram.com/investors/notice>

Thanking You,

Yours Faithfully,

For DCM Shriram Limited

Deepak Gupta
